Memo to: Commissioners of the Cumberland County Insurance Commission

From: PERMA Risk Management Services / PERMA Claims

Subject: MANDATORY YEAR-END CLAIMS REPORTING

As you are aware, certain policies issued to the Cumberland County Insurance Commission and/or its members apply on a claims made or discovered AND reported basis (e.g., Public Officials / Employment Practices, Employed Lawyers, Cyber, Medical Malpractice, Crime, Pollution.) With these types of policies, any claim made against you or loss discovered during the policy period **MUST** be reported before the end of the policy year. Therefore, it is imperative that any claim, potential claim, or facts and circumstances that may give rise to a claim be reported to the insurance company **prior to policy expiration on 12/31/25**.

Please conduct a review "sweep" of any Public Officials & Employment Practices Liability, Employed Lawyers Professional Liability, Cyber, Healthcare Professional & General Liability, Crime or Pollution claims, suits and/or incidents of which you (or anyone else in your organization) may be aware that have not yet been reported.

Such claims must be reported to the insurance carrier prior to 12/31/25. Please keep in mind that these types of policies are "claims made and reported" or "discovery" policies, and failure to timely report a discovered loss or claim (or potential claim of which you are aware) may result in a denial of coverage from the insurance carrier.

Please report these claims in the same manner as you have throughout the year. Given the upcoming holidays, we respectfully request that you complete this process as soon as possible so that there are no delays in getting claims reported to the carrier(s).

Please let us know if you have any questions or concerns.

ZOOM SAFETY TRAINING GUIDELINES

Attendees who enter the class more than 5 minutes late or leave early will not be awarded CEUs for the class or receive a certificate of completion. To maintain the integrity of the classes and our ability to offer CEUs, we must abide by the rules of the State agency who issued the designation. Chief among those rules is the attendee of the class must attend the whole session. This guideline also applies to any participant taking the class as part of the NJCE Leadership Academy Program. The Leadership participant must be in attendance for the entire class runtime (no exceptions) in order to receive credit for the class.

The Zoom platform is utilized to track the time each attendee logs in and logs out of webinars. Also, we can track participation, to demonstrate to the State agency that the student also participated in polls, quizzes, and question & answer activities during the live, instructor-led webinar. We maintain these records to document our compliance with the State agency.

Zoom Training Registration:

- When registering, please indicate the number of students that will be attending with you if in a group setting for an
 accurate count to avoid cancelations due to low attendance. Once registered you will receive an email with the
 webinar link. Be sure to save the link on your calendar to access on the day of training.
- Please register Early (at least 48 hours before, as Under-attended classes may be cancelled).
- A Zoom account is not needed to attend a class. Attendees can log on and view the presentations from a laptop, smartphone, or tablet.
- Zoom periodically updates their software. After registering for a webinar, the confirmation email contains a link at the bottom to Test your system. We strongly recommend testing your system, and updating it if needed, at that time
- Please <u>click here</u> for informative Zoom operation details.
- It is suggested you log in to the webinar about 15 minutes early, so if there is an issue, there is time to address
 it. We cannot offer credit or CEUs/TCHs to attendees who log in 5 minutes late or leave early.

2025 Claims Sweep on Claims Made Policies

We have contacted all the of the members and reminded them to advise our office if they have any knowledge of an incident which may give a rise to a claim under the "claims made" policies: Public Officials / Employment Practices, Medical Malpractice, Employed Lawyers, Crime, Pollution and Cyber Liability. These policies have strict definitions as to what constitutes "knowledge of a claim" and the time period in which it must be reported to the carrier for coverage to be afforded. As these policies expire on 1/1/2026, we need to report any potential claims that may have been throughout 2025 to the carriers prior to 1/1/2026.

IV. Chairwoman's Report – Dr. Hickman

Dr. Hickman began by speaking about the summer weather and thanked Mr. Prince for the J.A. Montgomery bulletins that have been provided.

She continued by speaking about two documents found on the County's intranet. One is the NJCE JIF monthly training schedule. She spoke about the importance of the schedule. In addition, she created a document that assists all County personnel to identify who needs specific training and how often such training is required. The document also states where the employee can take the training. The document was shown to the committee as she explained it. She also stated how training communications have changed regarding whom documentation is being sent to. All trainings need to be coordinated with operations. She spoke about the importance of the required training that PEOSH looks for at the end of the year.

Next, Dr. Hickman stated that Mr. Prince would speak about the most cited PEOSH safety violations when it was time for his report. She stated that there is a link to training and explained the significance of the safety and accident review committee. She stressed the importance of each committee member taking the information learned at the committee meeting and sharing it with their department.

Lastly, she spoke about learning administrators for the Learning Management System. She spoke about the difference between the live class training and the video training. She advised that all employees have access to the system and should be utilizing it.

V. Risk Management Consultant's Report

Mr. Henry reviewed the claims experience graph, valued as of 8/31/2025, which illustrates the total number of workers' compensation claims for Cumberland County and Cumberland County Utilities Authority, with an exclusion of any pandemic claims.

He continued by advising that the one submission to the 2025 NJCE JIF reinsurer safety grant was provided to J.A. Montgomery, and he is waiting for the carrier's decision on the submission. Mr. Prince provided an update on when the submissions would be reviewed and advised that this year was the greatest number of submissions received.

VI. NJCEL Safety Director's Report

Mr. Prince advised that the New Jersey Counties Excess Safety committee will be meeting and reviewing the PEOSH commonly cited citations, along with the requirement of PEOSH's written programs.

He continued by speaking about the www.NJCE.org website and the training that is available for the committee members.

Next, he spoke about the quarterly report from the PEOSH Advisory Board. Two members of the J. A. Montgomery office were sent to the meeting to find out what PEOSH is responding to, focusing on and the reasons why. He spoke about the multiple reasons that PEOSH would be required to visit an entity. He continued by speaking in depth of the PEOSH commonly cited citations and Health Department regulations. He encouraged the committee to reach out in the event of a PEOSH citation or visit.

Lastly, he stated that if there is any training needed for a specific hazard, he encouraged committee members to reach out to Dr. Hickman to see if a custom training course can be developed. Dr. Hickman spoke about training and written programs. She advised that the information can be found on the documentation uploaded on the County's intranet. Mr. Prince advised that public entities are being cited in New Jersey for not having a program or training for when employees are exposed to excessive heat. He advised that a written program is available on the website. He stressed the connection between the written programs and training and ensuring that they are providing the same information to employees. He advised where all written programs can be found on the website and can be customized for each department. Dr. Hickman spoke about the training the County has implemented recently. She thanked Mr. Prince for all the education provided to the County.

VII. Presentation of Supervisor's Accident Investigation Forms for Review – Dr. Hickman The accident investigation form for the Workers' Compensation claims on Exhibit A were reviewed.

Mr. Henry commented on the total cost of all the claims discussed as opposed to the number of claims.

VII. Old Business

Dr. Hickman thanked Mr. DeWoody for all he does regarding compliance with the right to know program. Mr. DeWoody advised that all survey data was certified by the deadline. The surveys have been distributed to all locations. The surveys need to be regularly available to employees. He spoke about how the vendor assisted with the right to know inspectors and the County's compliance. Dr. Hickman explained the right to know program. She spoke about the safety portion of the hazard communication. Mr. DeWoody spoke about the responsibility of completing a safety hazard sheet if new items are brought in. Every department should have one annual training course on right to know about chemicals that are specific to that department as well as new hire training.

IX. New Business

EXECUTIVE DIRECTOR REPORT:

2024 Audit Report – A draft copy of the 2024 Audit was distributed to Fund Commissioners under separate cover. Representatives of the Commission's auditor, Bowman & Company, will attend the meeting to formally present the audit. Included in the agenda on **pages 3-5** is Resolution 25-24, Certification of Annual Audit Report for the Period ending December 31, 2024 along with the Group Affidavit Form.

Kaleigh Sawers of Bowman & Company reviewed the 2024 Audit Report. Ms. Sawers said she was happy to report that after completion of the auditing procedures the report is issued as an unmodified opinion with respect to the financial statements as a whole and also the internal controls over financial reporting. This means there were no findings or recommendations listed in the audit report. It is unusual to have findings in these types of entities because they are professionally managed. Ms. Sawers said all of the TPAs do a wonderful job, starting with Executive Director Stokes and his team at PERMA. The comparative statement of net position lists total assets for the year were \$4.3 million. Liabilities and reserves were \$6.1 million resulting in a net position of a negative \$1.8 million. Ms. Sawers reported the reason for the deficit is that the reserves for the years had an increase of 24% from last year to this year and that is like the increase from 2022 to 2023 where there was a 20% increase. Reserves are very much an estimate and is not actual monetary cash that is outgoing or incoming. It is based on the actuary's projections. A discussion with the claims admin may be helpful to see if there are any specific claims that are driving the increase. Overall, the actual cash position of the Commission is good. Revenues for the year were \$4.4 million, operating expenses \$5.7 million, operating loss of \$1.3 million, which is very much driven by those loss reserves, because they are part of the provision for claims and claims adjustment expenses up at the top of the operating expenses, and the non-operating revenue of \$200,000, which arrives at the ending net deficit of \$1.8 million. There were no new disclosures added to the notes to the financial statements, and the supplementary statutory schedules summarize all of the financial information just presented by fund year and by line of coverage. Ms. Sawers thanked the Commission for the opportunity to serve the Commission once again.

On page 4 there were some agencies added to the Med/Mal coverage. There is a correction for the Cumberland County Utilities Authority the retention was corrected from \$50,000 to \$25,0000. The NJCE is scheduled to meet virtually on Thursday, October 23, 2025 at 9:30 am. Executive Director Stokes reported the 2024 audit was adopted. The Underwriting team previewed the 2026 renewal and Safety Director Glenn Prince discussed the 2025 Safety Grant with accolades going out to him for that.

2026 Renewal – The 2026 renewal process began the beginning of August with a deadline to complete by September 5. The Fund Office is following up for any outstanding items.

2026 Pre-Renewal Webinar - The NJCE Underwriting Manager held a webinar on the 2026 pre-renewal and the marketplace on September 22nd. A copy the presentation will be sent under separate cover, and a recording of the webinar will be uploaded to the NJCE website.

As of May 31, 2025, the Commission has a deficit of \$1,758,246. Total cash on hand is \$3,084,972. Executive Director reported the April report showing a small gain of about \$16,000 in surplus. On page 15 was the May report where another small gain was picked up in additional \$20,000. Deficit is still sitting

at \$1.7 million. As Kylie mentioned, a lot of that is reserve-driven and IBNR-driven. There is over \$3 million in cash, so we are in pretty good financial position there.
